

RF Exposure Statement

For the product denoted in the following way:

Instrument Type: **Microwave Moisture and Density Measuring System MW 55 Article Number 177489**
equipped with:
Option Antenna Unit Dual Vivaldi or Option Antenna Unit Quadro-Vivaldi
Module Lightbarrier MW 55 complete

This device has been tested and found to comply with the requirements set forth in 47 CFR Part 15 for both fundamental emissions and unwanted emissions. These limits are designed to provide reasonable protection against any harmful interference when the device is operated in a commercial environment.

Modifying the device without TEWS authorization may result in the device being no longer compliant with FCC requirements. In that event, your right to use the device may be limited by FCC regulations, and you may be required to correct any interference to radio or television communications at your own expense.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the device.

This device complies with the requirements set forth in FCC 47 CFR Section § 1.1307 addressing RF exposure from radio frequency devices. To maintain compliance, the minimum separation distance from the antenna to general bystander is 20 cm.

Tested setup:

Measuring unit MW 55 Article Number 177489
2 antennas on a table
Cable for the antennas: coaxial cable "S04272B", 3m
Module Lightbarrier MW 55 complete
